JOPPE IEMANTS

Applied Computer Science Student | Artificial Intelligence

+32 494 64 95 48 joppe.iemants@gmail.com Bruges, Belgium

ABOUT ME

Applied Computer Science student specializing in Artificial Intelligence at Howest, with practical experience in machine learning, cloud computing and software development. Interested in applying AI to real-world technological solutions.

EDUCATION

Howest University of Applied Sciences | Bruges, Belgium | 2024 - Present

Bachelor of Applied Computer Science – Artificial Intelligence

Relevant coursework: machine learning, deep learning, MLOps, software development, databases and cloud computing.

GO! Atheneum Oudenaarde | Oudenaarde, Belgium | 2022 - 2024

Secondary Education – Applied Computer Science

Built a foundation in programming, software development and IT concepts in preparation for further studies in computer science.

PROJECTS & EXPERIENCE

Deep Learning Stock Prediction Project | Howest, Belgium | 2026

Developed a deep learning model to predict next-day stock price movement using financial data and news sentiment features. Currently working in a team to deploy and manage the model using Azure Machine Learning.

Face Recognition Application | 2026

Developed a local computer vision application using camera input to detect objects, recognize a registered face and interact with the Spotify API.

RUN-EU Drones Programme | Universidad de Burgos, Spain | 2025

Participated in an international programme focused on drone mission planning, photogrammetry and data collection.

SKILLS

Programming

- Python
- C#
- Java
- JavaScript
- SQL

AI & Cloud

- Machine Learning
- Deep Learning
- Reinforcement learning
- Azure Machine Learning
- Docker

Other

- Git & GitHub
- Databases
- Dutch - Native
- English - Professional
- French - Basic
